

IDEA 1: Technology promotes self-directed learning

Technology empowers teenagers to control their own learning process.

Supporting points:

- Learning at one's own pace
- Ability to revisit difficult content
- Shift from passive learning to active engagement

Example (recyclable):

- Online tutorials allow students to repeat lessons until mastery is achieved, unlike fixed-paced classrooms.

Useful phrases:

- take charge of their own progress
- self-directed learning
- active engagement
- achieve mastery

IDEA 2: Technology enhances learning quality

Main claim:

Digital tools improve understanding and motivation.

Supporting points:

- Interactive apps
- Multimedia explanations
- Immediate feedback

Example:

- A student struggling with algebra can use step-by-step tutorials and practice tools.

Useful phrases:

- interactive platforms
- multimedia content
- boost motivation
- deepen understanding

IDEA 3: Technology develops essential 21st-century skills

Main claim:

Using technology prepares teenagers for modern workplaces.

Supporting points:

- Critical thinking
- Problem-solving
- Digital literacy

Example:

- Research-based tasks improve information evaluation skills.

Useful phrases:

- digital literacy
- critical thinking skills
- indispensable in the modern workplace

IDEA 4: Drawbacks exist but are controllable

Main claim:

Negative effects are real but manageable.

Problems:

- Excessive screen time
- Reduced face-to-face communication
- Distraction

Solutions:

- Clear boundaries
- Screen-free periods
- Productivity techniques

Example:

- Pomodoro technique to maintain focus.

Useful phrases:

- excessive screen time

- information overload
- mitigate negative effects
- clear boundaries

FINAL CONCLUSION IDEA

Core message:

Benefits outweigh drawbacks when technology is used responsibly.

Reusable sentence frame:

While unsupervised reliance poses risks, the advantages far outweigh the drawbacks when proper guidance is provided.

IDEA RETENTION EXERCISES

Exercise 1: Idea Matching

Match the idea to its function.

- A. Self-directed learning
- B. Digital literacy
- C. Screen-time risks
- D. Active engagement

1. Skills needed in the modern workplace
2. Learning without teacher dependence
3. Loss of concentration and interaction
4. Students participating actively

Exercise 2: Example Expansion

Give **one specific example** for each idea.

1. Self-directed learning → example
2. Learning quality → example
3. Workplace skills → example
4. Managing drawbacks → example

(Students must avoid general examples like “*many students use phones*”.)

Exercise 3: One-Sentence Argument Drill

Turn each idea into **one Band 7+ sentence**.

Model:

Technology enables students to revisit complex topics at their own pace, leading to deeper understanding.

Exercise 4: Counterargument Control

Complete the sentence logically:

Critics argue that _____, yet this issue can be addressed by _____.

(Forces balance + coherence.)

Exercise 5: 5-Minute Plan Task

Students create a **Task 2 plan** using only the idea bank:

- Introduction stance
- Body 1: Benefits (choose 2 ideas)
- Body 2: Drawback + solution
- Conclusion
